## **MAJOR SPECIAL EVENT GUIDELINES**

Major Special Events are those events / activities impacting a significant portion of the park and the experience of park visitors. An event may fall under major special event guidelines when it involves more than 400 people, multi-day events, and use of non-designated special event areas, extensive setup, size, and event scope. Park policy permits no more than four major special events are permitted during a calendar year which may only be held during the off-season (after Labor Day and prior to Memorial Day weekend). Proposals are considered on a case-by-case basis and may require a competitive selection process if multiple parties are interested in the same period. ALL major special events require a monitor for the full duration of the event and expanded insurance coverage commensurate with its size and complexity.

**The Selection Process** - Major special events are approved by the Orange Coast District Superintendent and must meet all requirements defined in the special event application form and Crystal Cove State Park Special Event Program Guidelines. Major special events are selected based upon consideration of the “best interest of the State”. Factors considered by the District Superintendent include potential impacts on the following: Park resources, public safety, park accessibility, areas surrounding park property, vehicle and pedestrian traffic safety, noise levels, time of day/year, location, size and scope of event, activities involved, liability to the State, public inconvenience, and revenue generated by such an event.

In the event that multiple special event applications / proposals are received for the same time period, all will be considered in a competitive process by the District Superintendent, following the selection criteria described above. If no special event applications / proposals are received by the due date for a specified period, proposals will be considered on a first-come, first-served basis.

**Fee structure** – There is no set fee structure for major special events, as each is unique. State Parks is required to charge fees sufficient to offset our direct costs, as well as an amount commensurate with the scale of the event and the extent to which it affects the park and the visiting public. Special event fees are re-invested in park programs and infrastructure.

**Submittal Deadlines** - Due to the long-range planning requirements of major special events, applications / proposals are considered and awarded for the following year major special event period. For example, the deadline for a 2017 pre-summer special event is January 1<sup>st</sup> of 2016, and the deadline for a 2017 post-summer special event is September 1<sup>st</sup> of 2016.

**Pre-Summer Major Special Event** - Two major special events may be permitted from January 1<sup>st</sup> to the Friday before Memorial Day each year. Special event application / proposals for the pre-summer period may be submitted to the park office no earlier than January 1<sup>st</sup> of the previous year. In the event that multiple proposals are received, selection evaluation will be made by January 15<sup>th</sup>. Otherwise, proposals will be considered on a case-by-case and first-come first-served basis.

**Post-Summer Major Special Event** - Two major special events may be permitted from the Tuesday following Labor Day to December 31<sup>st</sup> each year. Special event application / proposals for the post-summer period may be submitted to the park office no earlier than September 1<sup>st</sup> of the previous year. In the event that multiple proposals are received, selection evaluation will be made by September 15<sup>th</sup>. Otherwise, proposals will be considered on a case-by-case and first-come first-served basis.
